

Cogito Digital

Laporan Progress Frontend

Periode: Juni – Juli 2026
Tim: Andreandhiki & Argya Vityasy

Ringkasan

Platform internal untuk student Cogito Academy. Dari 14 halaman frontend, 13 sudah selesai dan 1 (Dashboard) masih perlu data real.

- **Stack:** React 19 + TanStack Router + Selia UI (TailwindCSS v4)
- **Backend:** Elysia + PostgreSQL + Drizzle ORM
- **Auth:** Better Auth + Google OAuth
- **Payment:** Xendit
- **Tema:** Dark theme default

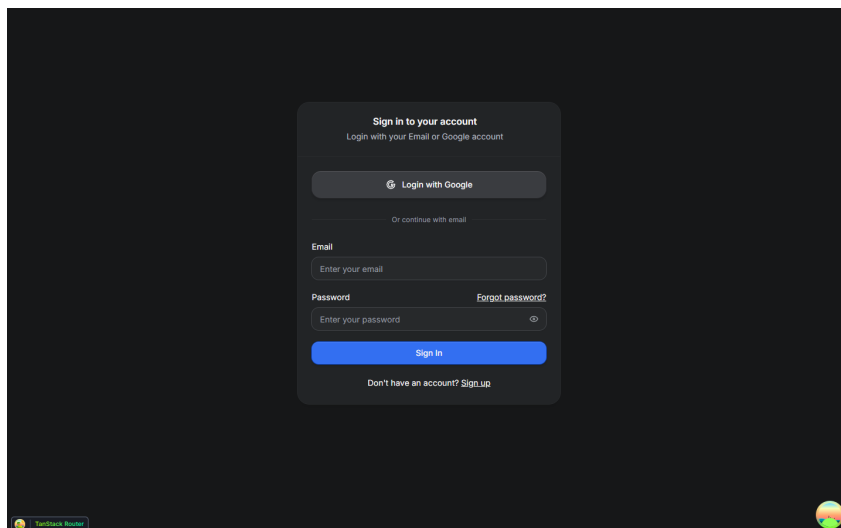

Daftar Halaman

1. Halaman Login

Route: /login

Status: Selesai

- Login dengan Google OAuth
- Login dengan Email & Password
- Toggle show/hide password
- Link "Forgot password?"
- Toggle ke form Sign Up

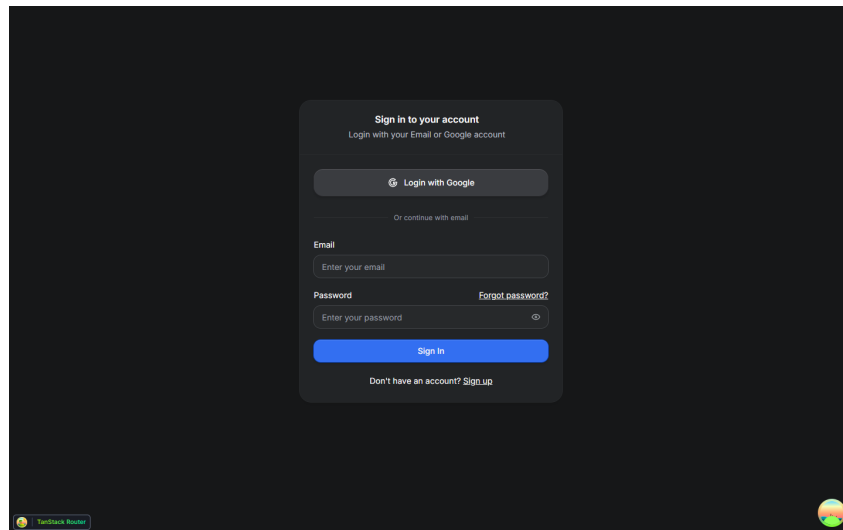

2. Halaman Sign Up

Route: /login (toggle)

Status: Selesai

- Field: Name, Email, Password

- Toggle show/hide password
- Validasi form

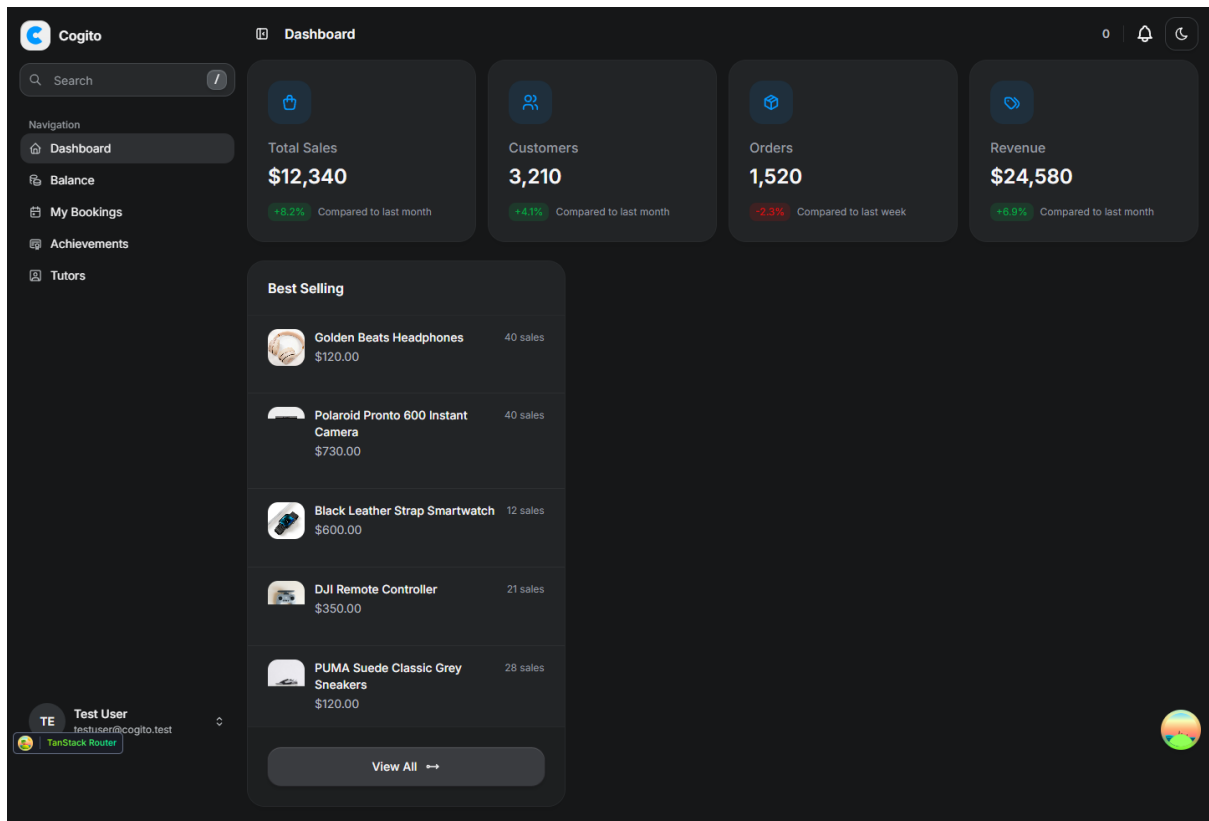

3. Dashboard

Route: /dashboard

Status: Perlu Data Real

- Sidebar kiri dengan logo "Cogito" + search bar
- Navbar: judul, Notification Bell, Theme Toggle
- 4 Stat Cards (data masih dummy)
- "Best Selling" section (data masih dummy)
- User menu di footer sidebar

Catatan: Data dashboard masih menggunakan data contoh/template. Perlu diganti dengan data Cogito asli.

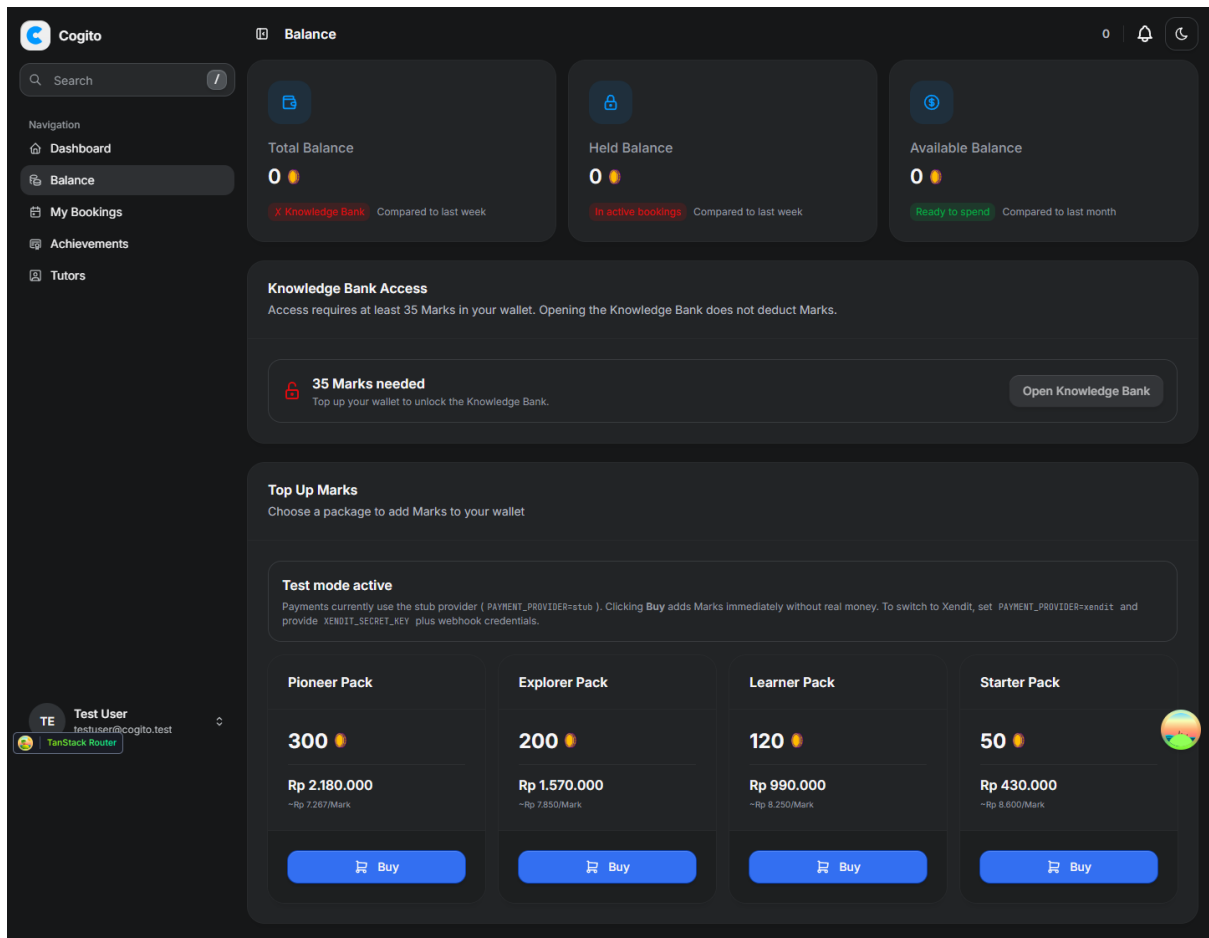

4. Halaman Saldo (Balance / Marks)

Route: /balance

Status: Selesai

- Total Balance, Held Balance, Available Balance
- Knowledge Bank Access (butuh minimal 35 Marks)
- Top Up Marks: 4 package (Pioneer, Explorer, Learner, Starter)
- Test mode active notice

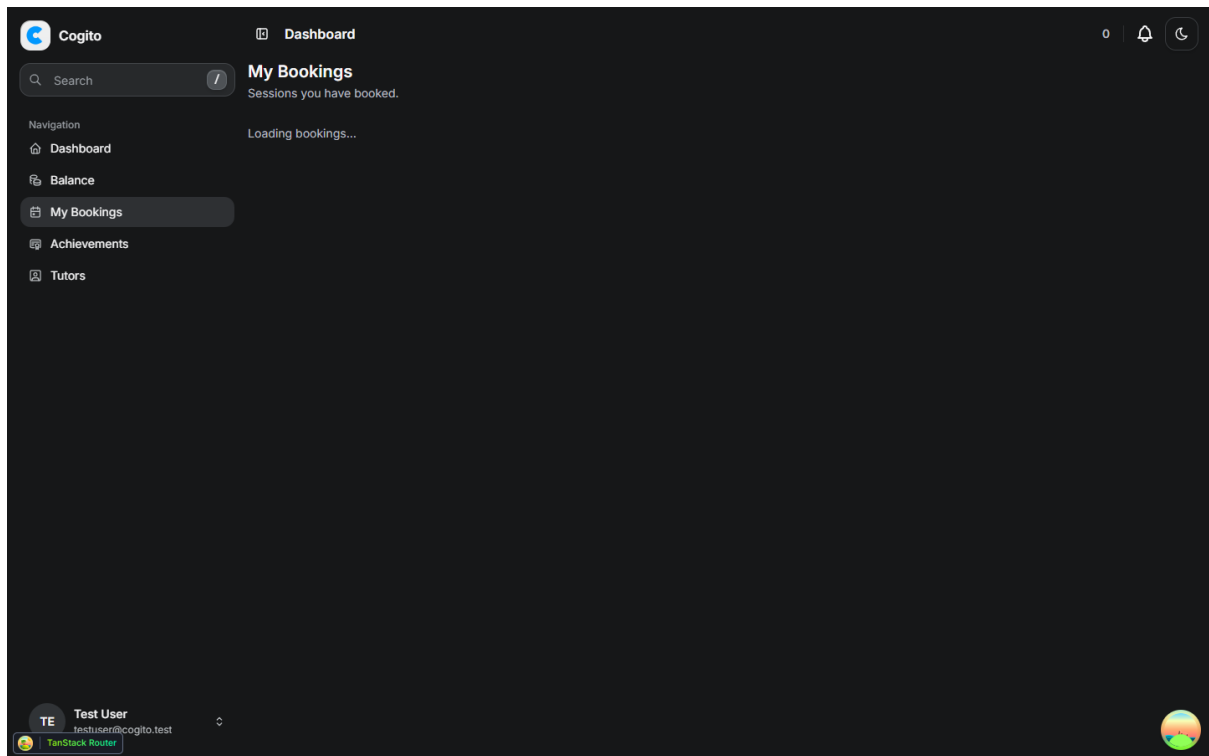

5. Halaman Booking Saya

Route: /bookings

Status: Selesai

- List booking dengan status badge (berwarna)
- Status: Awaiting tutor, Scheduled, Completed, Cancelled, Declined, Expired
- Tombol Cancel
- Empty state: "No bookings yet."

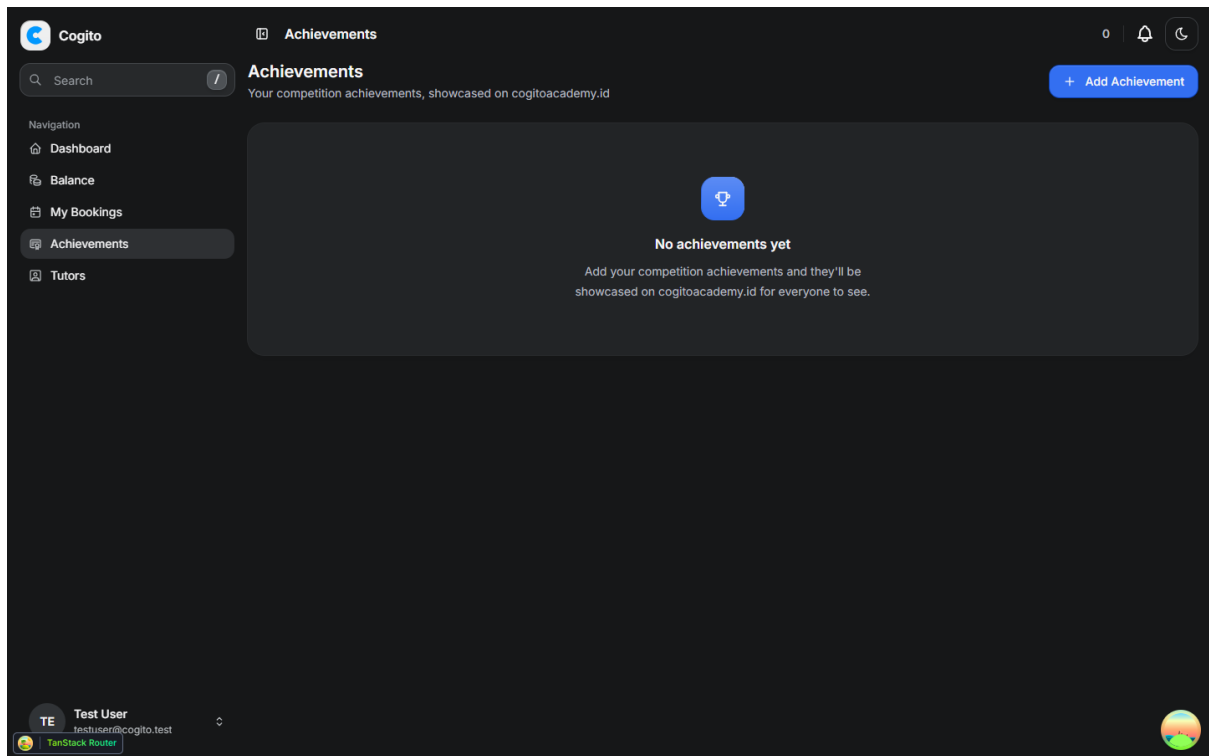

6. Halaman Achievements

Route: /achievements

Status: Selesai

- Tambah Achievement
- Filter kategori & status
- Stats: Total, Approved, Pending
- Empty state: "No achievements yet."

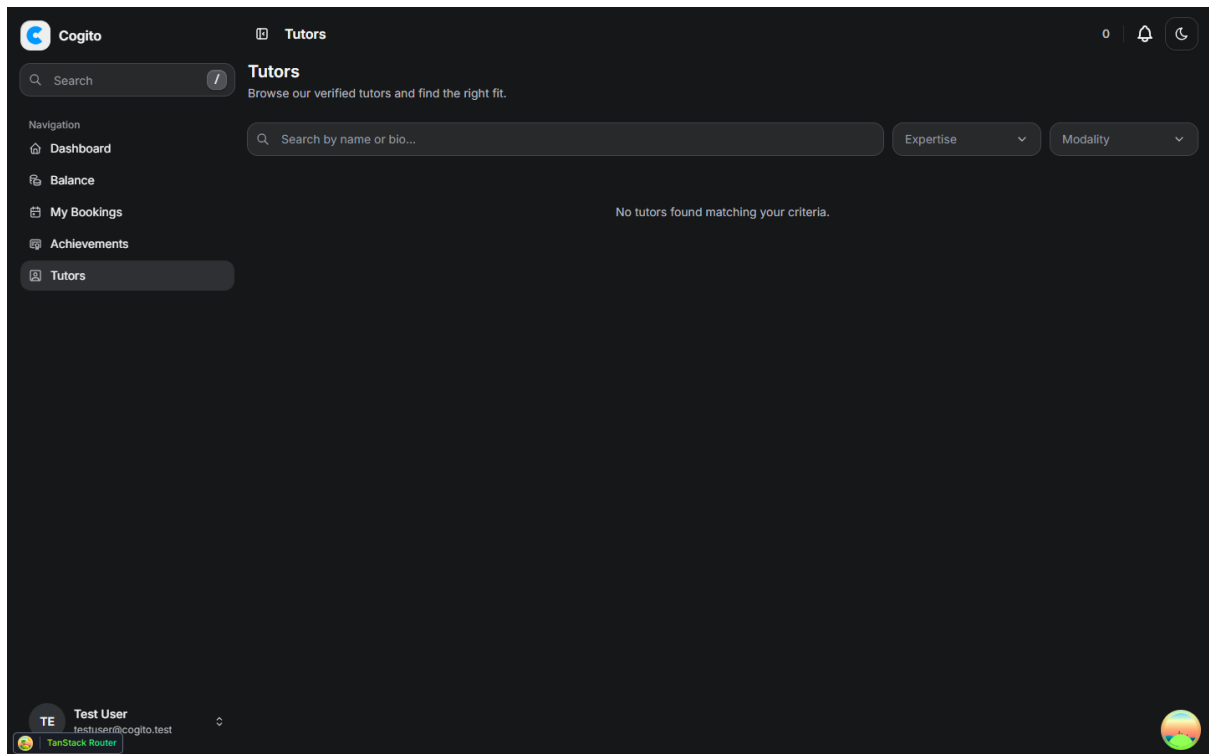

7. Halaman Cari Tutor

Route: /tutors

Status: Selesai

- Search bar
- Filter Expertise (Mathematics, Physics, dll)
- Filter Modality (Online, Offline, Both)
- Grid card tutor dengan foto, nama, bio, badge
- Drawer detail tutor (slide-in)
- Loading skeleton

8. Halaman Profile

Route: /profile

Status: Selesai

- Edit profil
- Field: Name, Email
- Tombol save

 The screenshot shows the 'Profile' page in the Cogito application. The page has a header with the Cogito logo and a search bar. The left sidebar contains a navigation menu with options: Dashboard, Balance, My Bookings, Achievements, and Tutors. The main content area is titled 'Student Profile' and includes a subtitle 'Update your details and parent contact information'. The form contains several input fields: 'Phone Number' (with a placeholder 'e.g. +62 812-3456-7890'), 'School Name' (with a placeholder 'e.g. SMA Negeri 1 Jakarta'), 'Grade Level' (with a placeholder 'e.g. Grade 11'), 'Parent Name' (with a placeholder 'e.g. John Doe'), 'Parent Phone' (with a placeholder 'e.g. +62 812-3456-7890'), and 'Parent Email' (with a placeholder 'e.g. parent@example.com'). A 'Save Profile' button is located at the bottom of the form. The bottom of the page shows a user profile for 'Test User' with the email 'testuser@cogito.test' and a 'TanStack Router' badge.

Halaman Lainnya (Tidak Disertai Screenshot)

1. **Admin – Kelola Tutor** (/admin-tutors) – Selesai. Invite, review, approve tutor.
2. **Onboarding Tutor** (/onboarding) – Selesai. Form profil tutor.
3. **Tutor Bookings** (/tutor-bookings) – Selesai. Accept/Decline/Complete.

4. **Notifikasi** (navbar) – Selesai. Bell icon + dropdown.
5. **Sidebar** – Selesai. 3 role berbeda (Student/Tutor/Admin).
6. **Invite Tutor** (/invite) – Selesai. Claim undangan via token.

Ringkasan Status

Halaman	Status	Catatan
Login	Selesai	Google OAuth + email
Sign Up	Selesai	Name, email, password
Dashboard	Perbaikan	Data masih dummy
Balance / Marks	Selesai	Top up, Knowledge Bank
My Bookings	Selesai	List + cancel
Achievements	Selesai	Add, filter, delete
Cari Tutor	Selesai	Filter expertise & modality
Profile	Selesai	Edit profil
Admin – Kelola Tutor	Selesai	Invite, review, approve
Onboarding Tutor	Selesai	Form profil tutor
Tutor Bookings	Selesai	Accept/Decline/Complete
Notifikasi	Selesai	Bell icon + dropdown
Sidebar	Selesai	3 role berbeda
Invite Link	Selesai	Claim via token

Rencana Selanjutnya

Berdasarkan `CONTEXT.md` dan rencana yang sudah ada di `docs/plans/`:

1. Consolidation (Improvement)

- Menyelesaikan arsitektur 4-layer di semua modul
- Migrasi driver database dari pg ke postgres.js
- Penerapan domain error architecture

2. Production Readiness

- Redis untuk session, idempotency, rate limiting, circuit breaker
- BullMQ scheduler untuk booking expiry, hold release, email dispatch
- Health check endpoint (GET /health) dengan DB + Redis ping
- Coverage threshold 80% overall, 90% untuk packages/api
- CD pipeline: build → push ke GHCR → migrate → deploy ke Coolify

3. Infrastructure

- Setup production deployment
- Docker containerization
- Environment configuration untuk production

4. PRD Gaps

- Mengecek dan menutup celah fitur terhadap Product Requirements Document

5. Bug Fixes (Prioritas Tinggi)

- **P0:** Meeting creation failure leaves booking in scheduled
- **P0:** Refund correction stores bookingId as paymentId
- **P0:** Series bookings never expire (no deadlineAt)
- **P0:** No CSRF protection on mutations
- **P1:** Triple session validation per request
- **P1:** Scheduler issues (onReleaseHolds, onSendNotificationEmail, graceful shutdown)
- **P1:** Refund createCorrection uses Date.now() in event key
- **P1:** applyOverride doesn't update booking.holdAmount

6. Data Dashboard Real

Dashboard masih menampilkan data dummy. Perlu diganti dengan data Cogito asli.
